Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Drawing Objections

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 21B from page 7, line 4. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The replacement drawings filed July 6, 2004 are not approved because they are annotated drawing corrections not actual replacement sheets. The use of a circled reference numeral 14 with the reference numeral 19 above it shows that two different reference numerals are used for the same structure and is improper. The replacement sheet should show reference numeral 19 alone. The reference numerals drawn by freehand on figure 1 are of poor quality so as to be difficult to read and are require replacement. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification Objections

The specification is objected for including the following informalities. Correction of the following is required: Applicant's replacement paragraph for the top paragraph on page 6 has several sentences repeated and does not use underlining to show the repeated sentences. The repeated sentences are confusing and must be removed.

The use of the expression "a/ rope" (page 2, line 6) is unclear in context as to why the "/" is used and --a rope-- is suggested. Reference numeral 53 refers to two very different structures

Art Unit: 3677

on page 9, lines 2 and 5, first a spindle and second the "tail" end of the cover, and is a source of confusion and requires change because the same reference numeral cannot refer to two very different structures. Applicant repeatedly misuses periods by either not providing them at the end of sentences (as found on page 3, line 4), the use of a period when none is appropriate (as found on page 2, line 7 for "U.S.,."; page 4, lines 18, 19 and page 5, line 2 for "Fig. 1." or "fig. 1."; page 8, line 3 for "24.") or the use of double periods when only one is appropriate (as found on page 7, line 1 at the end of a sentence). Appropriate correction is required.

Claim Objections

Claims 18, 20, 24-26, 28 and 29 are objected to because of the following informalities:

Periods should only be used to end a claim and not be placed in the middle of a claim.

Therefore, it is suggested that the periods in claim 18, line 6; claim 20, lines 6, 23; claim 24, line 6; and claim 25, lines 6, 22 be deleted or replaced with other punctuation, as appropriate. Claims must end in a period and applicant's amendment to claim 24 so that it ends in a colon is improper and applicant should amend the claim so that it ends in a period. The term "said cover means" (claim 18, lines 25, 28) lacks clear antecedent basis and it is suggested that it be changed to --said cover--. The term "said cover" (claim 20, line 24) lacks clear antecedent basis and --said cover means-- is suggested. The term "said cam" (claim 28, line 29) lacks clear antecedent basis because it can refer to either the first or the second cam and in context --said cleat-- appears to be more appropriate. The term "said abutment" (claim 20, lines 29 and 32, second occurrence) lacks clear antecedent basis and --said abutment means-- is suggested. Claims 26 and 29 are objected to because of their dependence on objected to claims. Appropriate correction is required.

Allowable Subject Matter

Claims 18, 20, 24-26, 28 and 29 are objected to, but would be allowable if rewritten to overcome the objections identified above.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

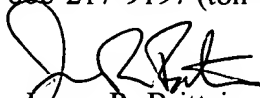

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
